SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Enclosed is Form PTO-1449, Information Disclosure Citation
In An Application.

The following Patents and/or Publications are submitted to
comply with the duty of disclosure under CFR 1.97-1.99 and
37 CFR 1.56.

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being
deposited with the United States Postal Service as first class
mail in an envelope addressed to: Commissioner for Patents,
P.O. Box 1450, Alexandria, VA 22313-1450, on September 21, 2004.

Stephen B. Ackerman, Reg.# 37761

Signature/Date

 9/21/04

In the article "Improved Switched Tuning of Differential CMOS VCOs," by Sjolund, IEEE Transactions on Circuits and Systems - II: Analog and Digital Signal Processing, Vol. 49, No. 5, May 2002, pp. 352-355, the limitations due to the imperfect complementary metal-oxide-semiconductor (CMOS) switches are investigated, and an improved structure for use with the popular differential CMOS LC-oscillator are presented.

U.S. Patent Application Publication US 2003/0067362 A1 to Losehand et al., "Component Having an Integrated Radio-Frequency Circuit," discusses a component having an integrated radiofrequency circuit, which has a resonant circuit with an oscillator capacitance having a value that can be set for a predetermined frequency range by a tuning diode.

International Patent Publication WO 01/06637 A1 to Collier et al., "Adjustable Filter," discloses the adjustment of filters, especially in ways that can address manufacturing variations. The filters may be usable in transceivers for transmitting and/or receiving radio signals.

Sincerely,

A handwritten signature in black ink, appearing to read 'S. B. Ackerman', with a large, stylized 'Q' or 'O' at the end.

Stephen B. Ackerman,
Reg. No. 37761
